

Krushang Mehta

mehtakrushang20@gmail.com | github.com/Krushang-Mehta | linkedin.com/in/krushang-mehta | krushang-mehta-portfolio.vercel.app

Full-stack developer skilled in React, Next.js, Node.js, and modern cloud tooling, with hands-on experience shipping production CMS platforms, AI-powered e-commerce, and animated interactive web experiences. Strong track record of owning projects end-to-end from architecture through deployment with a focus on clean, scalable code and performant, engaging UI. Seeking a full-stack or frontend development role to apply and grow these skills.

EDUCATION

Atmiya University

Aug 2022 – May 2026

Bachelor of Technology in Computer Engineering — Rajkot, Gujarat

- Focused coursework in full-stack development, system design, and scalable web application architecture.

EXPERIENCE

Full Stack Developer — Nexvity Infotech Pvt. Ltd.

Apr 2026 – Present

Internship

- Migrated and redesigned legacy company projects onto a modern Next.js stack, improving load performance and maintainability.
- Built and shipped the company's website CMS on Next.js with a custom Node/MongoDB API layer, enabling real-time content management for the marketing team.
- Designed animated, interactive frontend experiences using GSAP, boosting on-site engagement and time-on-page.
- Owned end-to-end delivery: initiated project scope, managed development sprints, and performed unit testing before release.
- Maintained production stability and performance sustainability across live deployments, coordinating fixes with minimal downtime.
- Handled the complete lifecycle from project initialization through to production delivery for multiple client sites.

PROJECTS

Nexvity Infotech CMS

Next.js, GSAP, Next API, MongoDB, Cloudinary

- Engineered a custom enterprise CMS and marketing website with a real-time dashboard for non-technical content editors.
- Optimized asset delivery via Cloudinary and route-level code-splitting, cutting page load times significantly.

SheetIQ — Excel Analytics Platform

Next.js, Sheet.js, Chart.js, Node.js, MongoDB

- Built a full-stack analytics platform letting users upload Excel files and instantly generate interactive 2D/3D charts.
- Implemented authentication, a user dashboard, and optional AI-powered insights on top of parsed spreadsheet data.

ScopSculpt.ai

Next.js, Express.js, REST/FastAPI

- Developed an AI-powered e-commerce platform that delivers personalized product recommendations and purchase guidance based on user intent.

ComfortTrip — Car Rental Platform

React, Serverless Functions, Stripe

- Built a full-stack car rental platform with vehicle search, availability, and booking management.
- Integrated Stripe payment APIs and a serverless backend to handle reservations and transactions end-to-end.

Logicnest Platform

Next.js, Three.js, GSAP

- Delivered an interactive corporate site with 3D visuals, custom service-filter grids, and fluid page transitions.

SKILLS

Languages & Frameworks: JavaScript (ES6+), React.js, Next.js, Node.js, Express.js, Python (FastAPI)

Frontend & Animation: HTML5, CSS3, TailwindCSS, GSAP, Framer Motion, Three.js, Responsive Design

Backend & APIs: RESTful APIs, GraphQL, WebSockets, Serverless Functions, Stripe Payment Integration

Databases & Cloud: MongoDB, PostgreSQL/MySQL, Redis, Prisma, Mongoose, AWS, Vercel, Firebase

Tools & Practices: Git/CI-CD, Docker, Figma (UI to Code), Web Accessibility (WCAG), Performance Optimization
